URGENT!

Volunteers Needed: The pool must have the water tested 7 days a week. We currently pay for 3 visits per week. If we were to pay the pool service to pick up the extra days, it would be an additional $3,000.00 per year. If we can get resident volunteers to be trained (very simple procedure) by the pool company, we can save that money. If you can do this - and it has to be done year round - please send your name to Jim Gallagher at leader300@aol.com. A training date will be announced shortly.
